2004 IEEE/IFIP Network Operations & Management Symposium

“Managing Next Generation Convergence Networks and Services”

Official Website: www.noms2004.org

About NOMS 2004

The 9th IEEE/IFIP Network Operations and Management Symposium (NOMS 2004) will be held 19-23 April, 2004 in COEX Convention Center, Seoul, Korea. NOMS 2004 will present the latest approaches and technical solutions in the area of network operations and management. Held in the even-numbered years since 1988, NOMS 2004 continues the established tradition of NOMS and IM as the primary forum for technical exchange of research, standards, development, systems integrator, service providers, and user communities. An exciting, peer-reviewed program of technical sessions, application sessions, panels, tutorials, posters, and vendor exhibits will address the ever-increasing interest in overall management solutions for all types of communications and computing networks, systems, services and enterprise applications.

The NOMS 2004 program consists of three distinct sessions: technical, application, and panels. Technical sessions present the papers on the latest research results in the network operations and management area. Application sessions present the papers focusing on the experience of IT/telecommunications industries (service providers, OSS/equipment vendors, etc.) and customers based on their system implementation and business practice in the operations and management. Panel sessions focus on business implications, market trends of cutting edge technologies, and applications with the panelists consisting of technology experts and business executives. In addition, NOMS 2004 will feature tutorials, posters, birds-of-a-feather sessions, and vendor exhibitions.

SPONSORSHIP INVITATION

NOMS 2004 Organizing Committee cordially invites you to an exciting corporate sponsorship opportunity. The international audience at NOMS 2004 makes this symposium an outstanding event at which to promote your company. Sponsorship at NOMS 2004 will provide you with direct access to hundreds of IT industry decision makers from all parts of the globe. Assessing the state of the market and the industry's future needs and trends, involvement as a sponsor of NOMS 2004 is cost effective, high-impact way to provide existing and new customers with ideas, products and answers. The options set out indicate the opportunities for contributing to NOMS 2004. Benefits will be consistent with those provided below and all sponsors will be acknowledged in the symposium program book and its website. Please contact the NOMS 2004 Secretariat for more information on the sponsorship details.
